

### *The Ocean Pro Series* *Big Water. Big Boat. Big Fun.*

#### **Ocean Pro Hard Top**

*Built for the big water the ocean throws at you. The 102" beam on 20' & 22' versions provides maximum stability and huge fishing space.*

#### **Ocean Pro Soft Top**

*The same rugged and roomy footprint as the hard top in an economical and sporty soft top model. Available in 20' and 22' versions.*

## BIGWATERBIGWATERBIGWATER

Building a boat that is safe enough, durable enough, and maneuverable enough to handle the awesome power of the sea is no small task. The Ocean Pro, however, lives up to its name. This popular vessel is designed, engineered and built specifically for the punishment that the ocean often delivers to fishing boats. Constructed with a .190" all-welded aluminum hull bottom and .125" sides, the Ocean Pro is tough enough to take a beating and dish out a little of its own. Whether fishing the Pacific, the Atlantic, or even the Great Lakes, the Ocean Pro is your big water boat.

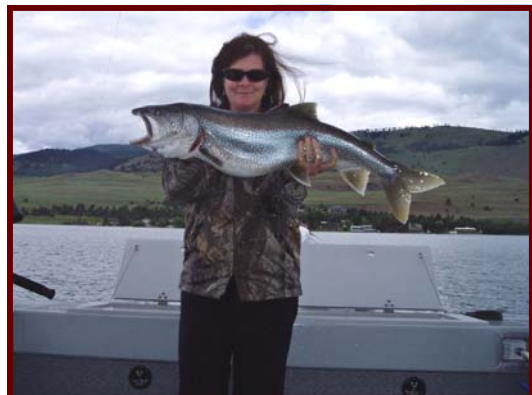

## BIGBOATBIGBOATBIGBOAT

Go big or go home—that's the theory the Hewescraft engineers were working from when they designed and built the Ocean Pro. Here are the results of their handiwork: 8'5" beam; 7' bottom; 35" side height; 52 gallon fuel tank; 32 gallon bow fish box; 37 gallon transom fish box; extended transom motor mount which is integrated as part of the hull bottom for additional planning surface; roomy hard top cabin (optional); and a spacious fishing cockpit for landing trophy sized lunkers. Sure it is big, but not overly heavy, so the Ocean Pro is fuel efficient and easy to tow.

## BIGFUNBIGFUNBIGFUN

What's your pleasure...Fishing? Shrimping? Crabbing? Kayaking? Hunting? Touring? Bird watching? Camping? Whale watching? On-board business meetings? You name it, the Ocean Pro provides big fun when engaging in all your favorite activities. The bench-to-bed sleeper seats ensure that the fun doesn't have to stop when the sun sets. The Ocean Pro's variable dead rise hull (35° forward; 21° amidships; 13.5° aft) offers optimum wave cutting action, an extra-smooth big water ride, and the maneuverability for powering up and down those big rollers. Even on those occasional days when the fish won't bite you will have fun just driving the Ocean Pro.

**FEATURES** **FEATURES** **FEATURES**

High back swivel seats on storage boxes; locking mechanism on driver side

Stern fish box in transom with split lid cutting surface

Welded bow rails; 5" high

Rod grippers in fishing cockpit with lower storage shelf

Standard Features

- Bilge Pump
- Bow eye; double welded
- Decals and side striping
- Fish box at transom (37 gal)
- Fish box in bow floor (32 gal)
- Fuel tank - 52 gallons
- Grab handles in cabin area on both soft top and hard top
- 10" gunwales w/ support plates
- Hewescraft exclusive gunwale floatation
- Hinged diamond plate step storage between consoles
- No feedback steering
- Running lights
- Self-bailing welded bow deck
- Switch panel with circuit breakers & gauge knockouts
- 15" steering wheel
- Windshield wiper for driver

Hewescraft's custom engineered extended transom motor mount

Glove box with lockable door

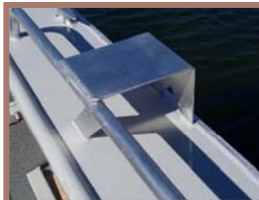

Standard three bow canvas on soft top version in black, blue, green, or gray

Transducer brackets for mounting anodes and electronics

**OPTIONS** **OPTIONS** **OPTIONS**

Stern rails and downrigger bracket

9" x 12" electric trim tab (pair)

Heavy duty suspension seats

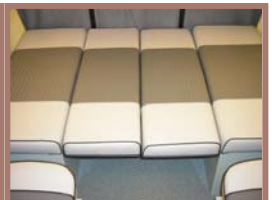

Additional Options

- Auto switch for bilge pump
- Deluxe canvas package
- Diamond plate floor aft of bulkhead
- Fuel tank upgrade from 52 gallons to 85 gallons
- Hand wash sink in fish box
- Hydraulic steering
- Jump seats (various sizes)
- Medium duty suspension seats
- Rod storage locker
- Rocket launcher rod holders (on hard top version)
- Swim ladder (port or starboard side of extended transom)

Wallas cabin heater

Bench-to-bed sleeper seats on oversized storage boxes

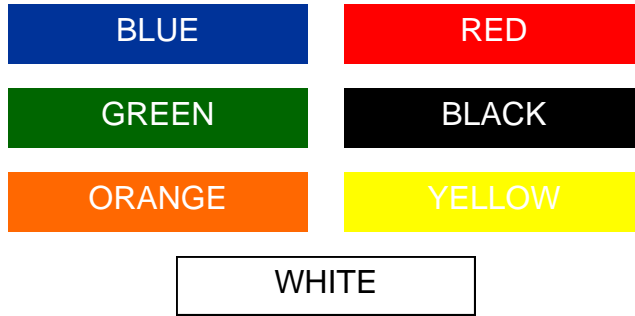

Dual helm on starboard hard top bulkhead

OWNERSOWNERSOWNERS

*"My 220 Ocean Pro hard top is very stable! It feels very safe at all times. My last boat was a 22' Sea Sport IO. There is no comparison as the 22' Ocean Pro is a far superior boat in all aspects, in my opinion. If someone were to tell me a 22' welded aluminum skiff would ride better than my 22' Sea Sport I wouldn't have given them much credibility, but it's true under rough water conditions and most others that I can think of."*  
- Dennis in Juneau, Alaska

*"I love my 220 Ocean Pro boat. I purchased the OP to fish the big water. I have been as far as forty miles off shore fishing for Halibut and my 22" Ocean Pro preformed great. The boat exceeded my expectation."*  
- Mike in Portland, Oregon
