

The Sea Runner Series

The All-Around, Ultimate, Fishing Boat

Soft Top Sea Runner

*Rivers, lakes, or
ocean - this boat
fishes it all.
Variable dead rise
hull geometry
smoothly manages
any water.*

Hard Top Sea Runner

*Offering a smooth
ride on the biggest
water, while provid-
ing cabin comfort in
the harshest
weather. Extra
fishing space with
extended transom.*

ALL-AROUND ALL-AROUND ALL-AROUND

Need to get that cabin built on a remote piece of waterfront property before you can settle in for some serious fishing? You wouldn't be the first one to use the roomy Sea Runner for some important utility work. How about commuting? The comfortable riding Sea Runner is perfect for moving fast and riding soft. Touring and sight seeing? Hewescraft's Sea Runner is the ideal boat whether you choose the sporty soft top version or the functional hard top model. Time and time again we hear the same thing from satisfied Sea Runner owners: "This boat does it all!"

ULTIMATE ULTIMATE ULTIMATE

Solid. Rugged. Fishable. Durable. Pleasurable. Fun. Functional. Roomy. Stable. Dependable. Those are just a handful of the often repeated words that we hear from owners of Hewescraft's popular Sea Runner. If you're looking for one boat that does it all while providing terrific long term value and great fishing functionality, the Sea Runner is it. And one additional thing that really sets it apart is Safety. To our knowledge, no other aluminum boat manufacturer constructs their boats with floatation in the gunwales like we do. We don't meet the standard, we set it!

FISHING BOAT FISHING BOAT FISHING BOAT

If there is any question about whether the Sea Runner is a serious contender, then consider this: Hewescraft is the #1 selling aluminum boat in the state of Alaska—a place where fishermen take their fishing and their fishing gear very seriously. The Sea Runner's variable dead rise allows for a softer ride when plowing through the big waves. The high sides keep you safe and dry. The six foot bottom on the Sea Runner provides plenty of stability and fishing space. Now in our 59th year of building aluminum fishing boats, Hewescraft has been doing it at least twice as long as many competitors. It's no wonder we are called "The Fisherman's Choice."

FEATURES **FEATURES** **FEATURES**

Swivel seats on aluminum seat box with open storage; locking on driver side

25.5 inch motor well transom with 3.5 inch step

Welded on bow rails; 5 inches high

OWNERSOWNERSOWNERS

"I bought my 220 Sea Runner because I've never seen a boat built as solid as a Hewescraft. I use my boat in Alaska and I know when the Alaskan wilderness takes a turn for the worse this boat will get my family home safe, warm, and dry. I like the hard top to put my inflatable on. This is not only my dingy but also our life raft. All I have to do is pull one rope and flip it into the water."

- Cameron in Pentwater, Michigan

"My 22' Sea Runner hard top is one of the best all around boats that I have seen. Its design allows it to handle the rough offshore fishing that we do in Southeast Alaska and with the large bow door, getting to the beach is easy. Whether I am taking out my family or a group of friends to go fishing, the Hewescraft keeps us comfortable and safe. I wish the rest of my fishing gear was as reliable."

- Shane in Sitka, Alaska
