

The Sport Jet
River Running Series
Versatility. Value. Varoom!

18' Sport Jet

River running gets no better than this. The 18' Sport Jet is compact in size, but is no lightweight in the areas of ruggedness and reliability.

20' Sport Jet

Engineered with the same exacting specs as all Hewescraft boats, the Sport Jet with its Mercury OptiMax 200 will tackle the river like a prop won't.

VERSATILITYVERSATILITYVERSATILITY

With the rock-solid, all-welded, heavy gauge aluminum construction, Hewescraft boats will take you places that other manufacturer's boats won't. But the Sport Jet adds all new dimensions to the water less traveled. The Sport Jet's minimal-draft jet technology allows you to cruise on step through water as shallow as 4 inches. Whether you're running rivers in the hunt for monster steelhead trout, trophy sized bucks, or brown bear in the Alaskan wild, the Sport Jet allows you to travel with speed, comfort, and maximum safety to get you there and back.

VALUEVALUEVALUE

For the outdoorsman looking for a feature-rich, functional, and flexible watercraft, this is your boat. The Sport Jet is built on the same time-tested hull platform that has made our Sportsman Series the most popular boats in Hewescraft's line up. That means this boat is tough enough to take the pounding of fast water rivers, maneuverable enough to manage the strong hydraulics of white water rapids, powerful enough to tow water skiers, and yet packaged in a convenient weight and size that makes towing, launching and storing your boat a snap.

VAROOM!VAROOM!VAROOM!

The boys are going to love this ride! Equipped with Mercury's popular OptiMax 200 jet drive, this vessel is powered by the engine leader in speed, reliability and performance. The Sport Jet offers true heart pounding acceleration. The OptiMax's large 7.25" diameter pump pushes more water through the pump for greater thrust, superior efficiency, and maximum velocity. This Mercury engine really roars on the water, while the rubber-isolated engine mounting system dampens engine vibrations to give you a smooth, comfortable ride and never requires adjustments or alignment. The Sport Jet satisfies your need for speed!

FEATURESFEATURESFEATURES

13" steering wheel; switch panel with gauges and kill switch

Side wall carpet for style and noise dampening; rod grippers (6 pair); storage tray

Standard canvas top in black, gray, blue, or green

Glove box with lockable door

OWNERSOWNERSOWNERS

"I'm extremely satisfied with my Sport Jet. The sturdy Sportsman hull along with the performance of the Mercury Jet Drive creates a lightweight, stable, roomy package that's also economical. I feel it's the ultimate 'Sport Utility Boat.'"
- Brad in Newport, Washington

"We love our Sport Jet! It is the ultimate boat to power in to those impossible places where the big bucks live. It is also built tough enough to bring them back out, and yet it is a pleasure to drive and ride for an outing with the family. My wife calls it our 'four wheel drive boat.' The canvas top and sides make it warm and dry on the coldest, rainiest, and roughest days. We are so totally satisfied that if it ever wears out we will definitely get another!"
- Dale in Great Falls, Montana
